

Entertainment Design & Technology Workforce Demographics Study 2021

Salary by Role, Ethnicity & Gender Identity

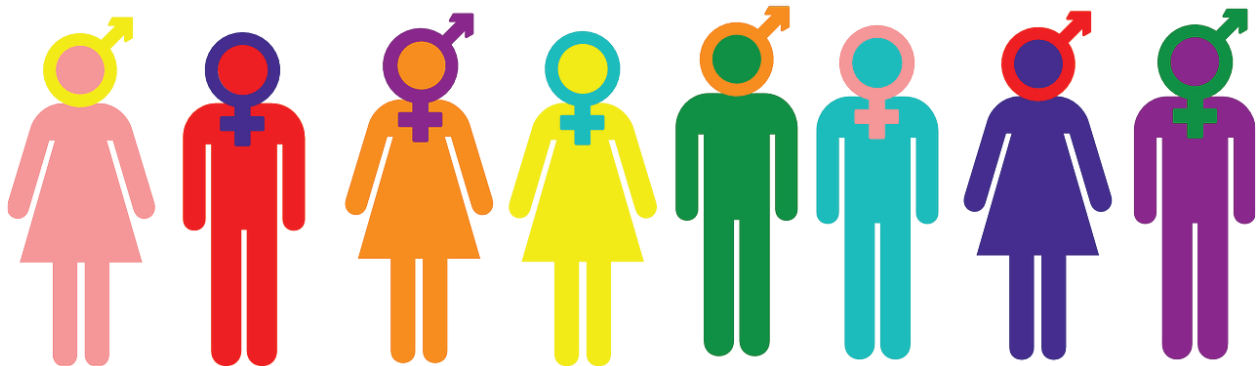

Overall, respondents were most likely to have a salary of \$50-\$75K.

Only the Theatre Business Professional category reported a median salary range of \$75K+.

Hispanic/Latinx, Black and those reporting more than one race or ethnicity had overall lower salary ranges than were reported by white, Asian, Middle Eastern, and indigenous respondents. Those reporting Some Other Race also had higher salary ranges than the first three categories noted.

SALARY BY GENDER IDENTITY

Respondents identifying as male reported higher median salary ranges.

In ALL ROLES except General and Artistic Management, male respondents reported higher median salaries than female, genderqueer or different identity. In the General and Artistic Management category, men, women, and those who did not state an identity all reported a median salary range of \$50-\$75K.
